Resume

Imanol Aranzadi - Web Developer

Recent Experience

Code for America   *2015-present*
Full Stack Developer   *San Francisco, CA*

I was part of a team of designers and developers who partner with the city government of West Sacramento. Our gaol was to improve the possibilities for existing and new entry farmers to start growing food in urban areas. We develop few simple web apps in which my task was to design and develop the frontend in one these and fullstack the other.

| Python | Javascript | Flask | Twillio | AngularJS |

| LeafletJS | Heroku | PostgreSQL |

i-comm tech
Front End Developer

2013-2015
San Francisco, CA

My primary task was to develop and design websites and apps for our clients, as well as leading the whole process of development the full version of some enterprise apps. Besides my technical tasks, I start and develop from idea to execution the first maker-coworking space of Puerto Rico, Engine 4 in the city of Bayamón.

| Javascript | CSS | HTML | AngularJS | Appcelerator |
